I have verified that the score for which approval is requested is not already on the State Graded Music List:

Self-rate the composition for which approval is requested using the accompanying score grading rubric. Attach the completed rebric to each composition's score submitted to the Score Grading Committee for review. Any score that does not have the completed rubric **will not be reviewed**. Please note – marches are not included in the State Music List and **will not be graded**. The Committee reserves the right to deem any particular selection as "not suitable" for Concert Performance Assessment. If you disagree with the Committee, you may re-submit any selection for reconsideration.
